POLICE USE CLUBS TO BREAK STRIKE

*Says Ed. Nockles of Chi. Federation of Labor—"Officers
Did Not Go to Herzog Factory to Protect
Life and Property."*

"The police who arrested Florence Cohen in front of the Herzog factories last night while she was picketing the place get their orders from the Herzogs." This was the shot fired by Edward Nockles, secretary of the Chicago Federation of Labor, in defense of the striking glove-makers.

"They acted as though they were paid by the Herzogs and not by the city. The police did not come to the factory to protect life and property; they came to use their guns and clubs in the interests of Nathan Herzog. They used their clubs to break the

strike, not to protect the interests of the people."

Nockles was hot over the arrest of Florence Cohen, girl picket at the Herzog factory. Florence got into an argument with a non-union worker and was promptly seized by a policeman.

Patrick Berrell, standing by, saw that the "scab" was more to blame than the picket and remonstrated to the police. They turned their clubs to him and he was badly beaten before being locked up.

Police clubs and police cells have few terrors for the girls of the sort
